HEM. Faure Essozimna GNASSINGBE

President of the Republic of Togo

« In essence, the Republic stands by the most vulnerable; to provide them with the support they need for their subsistence, but above all to lead them gradually to free themselves from the grip of poverty and to become actors of development themselves»

Extract from the address of the Head of State, His Excellency, M. Faure Essozimna GNASSINGBE on the State of the Nation
April 26, 2019

Édito

Since 2008, our country has undertaken major projects to promote social development and strengthen economic inclusion for grassroots populations.

Several programs and projects have been implemented and are being consolidated over time thanks to the determination and commitment of the Head of State, Faure E. Gnassingbé, and the support of technical and financial partners.

Whether in terms of access to basic infrastructures, capacity building for grassroots actors, improving the income of cooperatives and groups or the socio-professional integration of young people, concrete actions have been undertaken and the Togolese population have begun to see the efforts made by the government. The year 2019 in particular saw the start of the activities of the Social Nets and Basic Services (FSB) project and the Employment Opportunities for Vulnerable Youth (EJV) project in more than 1,350 villages in the 209 poorest cantons of Togo.

Depending on the characteristics of their vulnerabilities, the government has initiated, in each of the targeted villages, the rehabilitation and construction of basic infrastructures, the consolidation of schools canteens or the allocation of cash transfers to poor households. For the rural labor force with little or no value, a privileged employment framework has been created that mobilizes poor and vulnerable youth

around a community volunteering

coupled with training in business development and citizenship. As a result of these actions, poor households and young people in these targeted cantons have increased their incomes. They have expanded their consumption to services that were formerly inaccessible to their purses, built up savings, and developed new income-generating activities.

Access to health care, children's schooling and healthy nutrition are increasingly made possible to beneficiary populations, and their resilience to shocks has been strengthened. Moreover, with the various support components provided by the government to the grassroots populations, the communities are becoming more organized and empowered. Their level of responsibility and commitment to

promoting local development has increased, with the emergence of a new class of elites within the grassroots communities; this now favors their effective participation in the life of their communes within the framework of decentralization.

By sustaining these initiatives, extending them to all vulnerable communities, continuing efforts to mobilize resources and strengthening collaboration with public and private, national and international partners, we will contribute to consolidating social development and strengthening inclusion mechanisms, as wanted in axis 3 of Togo's National Development Plan 2018-2022.

That is why I welcome and encourage all the efforts being made by the various actors at the grassroots level and the support of our partners, in particular the World Bank, which is providing significant support to the Government in the area of social protection and employment.

It is my hope that more and more development actors will join this common struggle to make each Togolese man and woman the full-fledged architect of the development of his or her community, his or her commune, his or her prefecture, his or her region and the country as a whole, so that no one is left by the wayside on the road to emergence..

Victoire S. TOMEKAH DOGBE

Minister for Grassroots Development, Handicrafts and Youth

52 “CANTONNAGE” PROJECT

AIM OF THE AGENCY

Faced with the persistence of poverty in our country, the concept of grassroots development, a new paradigm centered on the access of all communities to the common subsistence minimum through the approach of inclusion of vulnerable groups, was launched in 2008.

This concept is characterized by the State's support of vulnerable communities for their self-care, in an inclusive socio-economic environment. It enables the basic needs of the populations to be taken into account while ensuring their full and responsible participation in the transformation of their environment.

To give content to this new approach, the National Policy for Grassroots Development (PNDB), adopted in 2012, defines four areas of intervention (i) strengthening the capacities of grassroots communities, (ii) enhancing local productive potential, (iii) improving basic infrastructures and (iv) promoting social safety nets.

To ensure the implementation of the PNDB and the integration of the grassroots development dimension in all development policies, plans, programs and projects in the country, the Government established the National Agency for Grassroots Development Support (ANADEB).

WHO ARE WE?

ANADEB is an autonomous public institution created on January 19, 2011 by decree n° 2011-017/PR providing guidelines to its creation, attributions, organization and functioning. It is the operational arm of the Ministry of Grassroots Development, Handicrafts and Youth (MDBAJ)

It has three management bodies:

- A supervisory board
- A board of Directors
- An Executive Board.

OUR VISION

Ensure sustainable universal access to at least all grassroots communities and organizations of Togo by 2032.

OUR MISSION

Ensure the implementation of the National Grassroots Development Policy (BNDP) defined by the Government and ensure the integration of the «grassroots development» dimension into development policies, plans, programs and projects.

OUR AREAS OF EXPERTISE

Assistance to CDBs in managing the development of their communities
Support for the construction and management of socio-economic and community infrastructures
Capacity building of grassroots actors
Support for improving the income of groups/cooperatives
Socio-professional integration of young people
Social nets (cash transfer, school feeding)

OUR STRATEGY

- Participation and inclusion
- Making-do
- Local ownership
- Identification of potential beneficiaries on the basis of the poverty map
- The principle of accountability
- Partnership

OUR TARGETS

- Grassroots communities (youth, households, vulnerable schoolchildren)
- Grassroots Development Committee (CDBs)
- Groups/cooperatives.

OUR PROGRAMS / PROJECTS

- Community Infrastructure Microprojects Support Program (PSMICO)
- Urban Community Development Program (PDC-ZU)
- Project to support the economic activities of groups / project for the development of root and tuber plants (PSAEG / PRT)
- Project to support communities in the manual maintenance of roads and tracks (CANTONNAGE PROJECT)
- Social Nets and Basic Services Project (FSB)
- Employment Opportunities for Vulnerable Youth Project (EJV).

OUR AREAS OF INTERVENTION

Villages

Urban and Peri-urban areas.

PSMICO

Since 2009

PSMICO

Community Infrastructure Microprojects Support Program (PSMICO)

Mobilize, Involve, Empower.

GENERAL OBJECTIVE

Support the process of setting up and managing the socio-economic infrastructures of the communities at the grassroots level.

SPECIFIC OBJECTIVES

- Empower grassroot development committees (CDBs) to manage their development
- Support the establishment and management of basic infrastructures
- Monitor and evaluate actions and capitalize on experiences

CRITERIA FOR SELECTING BENEFICIARY COMMUNITIES

- Relevance of requests according to the poverty map of Togo
- Technical and financial feasibility of micro-projects
- Level of organization and capacity for community participation
- Respect for the principle of equity between the different regions and prefectures
- Existence of other programs of the grassroots departement for synergy of action

TARGET GROUP

- Vulnerable rural communities, urban and peri-urban

COMMITTED FUNDING

- 9 billion CFA, or US\$30 million

PSMICO RESULTS

483

classrooms built,
including 64 in 2019

553

Market sheds built and rehabili-
tated, including 68 in 2019

PSMICO, BENEFICIARIES' TESTIMONIES

Dr Kossivi AFANFI
Prefectural Health Director, Zio

« A year ago, patients were not willing to come to the Mission Tové Health Centre because the center was not in good condition at all. Today, all of us have witnessed it, it's very beautiful. I would say that it is one of the most beautiful works that exist in the prefecture of Zio. We thank the people who thought of Mission Tové and its reconstruction and building of a new maternity hospital. We would like to thank in particular, the Head of State who has met the expectations of the people of Mission Tové. »

Yana AWATE
President of the Women Committee
of Elavagnon market

« We are flooded with joy. Over the past years, the market used to happen under trees and the baiting of fortune; and when it rained, we had to put away our stalls, and sometimes we stayed in the rain because we had nowhere to hide. Now we have permanent sheds, stores, an administrative block, and shelters for cattle and poultry. Really, it's very good. Everything is set in place. Every merchant in the prefecture will now want to come to this market. Our businesses are salvaged. We say thanks to the government and ANADEB. »

FSB

Since 2017

Objectives

Ensure better access for poor households and communities to basic socio-economic infrastructures and social safety nets.

Component 1: BASIC SOCIO-ECONOMIC INFRASTRUCTURES

To support the rehabilitation and construction of basic infrastructures in target communities, in order to increase access to related socio-economic services.

Planned financing: US\$8.4 million or 5.040 billion CFA francs

Component 2: SOCIAL NETS

Planned financing: US\$15 million or 9 billion CFA francs + US\$3 million per year or 1.75 CFA francs/year

Sub-component 2.1: School canteens

1. Objective

To increase access to regular school meals for children from the poorest communities in Togo, which in turn should improve attendance and retention in schools in the targeted areas.

2. Implementation stages of school canteens

- Selection of institutions
- Selection of NGOs and signing of contracts
- Information and awareness-raising for schools, CVDs, CPEs, and mother-canteens
- Signing of the contracts with CPEs by NGOs
- Implementation of the operation
- Training of the mother-canteens in the culinary arts
- Follow-up of the operation

3. Beneficiaries / Targets

- Coverage zone : The coverage is national. It involves all the five (5) regions of the country
- Number of schools: 304 schools from 22 prefectures in the five economic regions of the country
- 92 000 schoolchildren during the 2018-2019 school year

4. Results

- Dropout rate : 0.8% in schools provided with canteen compared to 1.5% in non-provided schools since 2010
- Increase of school enrolment by 10,3% in beneficiary schools compared to 0,6% in non-beneficiary schools since 2010
- Contribution to meeting the nutritional needs of children.

5. Cost of school canteens

2.5 billion CFA francs per year, including 1.5 billion francs from the World Bank and 1 billion CFA francs from the Togolese government.

SCHOOL CANTEENS IN PICTURES

Sub-component 2.2: Money transfers (TM)

1. Objective

To enhance the income and consumption of the targeted households and thereby increase their capacity to cope with shocks.

- US\$10 million or 6 billion CFA francs by the World Bank
- 1.3 million US dollars/year, or 750 million CFA francs/year from the State.
- Amount per transfer per household: 15.000 CFA francs
- Transfer Frequency: Quarter (every 03 months)

2. BENEFICIARY /TARGET

- 61,000 beneficiary households from 685 villages in 209 poor cantons in the 5 regions of Togo
- 120,000 households in perspective at the end of the project.

ANNUAL COST

4.32 billion CFA francs, including 3 billion by the World Bank, and by the State.

DURATION

Two (02) years

MONEY TRANSFERS IN PICTURES

First payment of TM, february 8, 2019

Educative chat at Djokoto (P/Vo)
on october 30, 2019

IMPLEMENTATION STRATEGY

- **Community participation:**
 - In the monitoring of the transfer operation
 - Educational exchanges and talks
 - Awareness raising
- **Equity**
- **Synergy of actions between stakeholders**
- **Partnership**

USE OF MONEY TRANSFERS

The transfer funds belong to the household and are intended for its expenses of :

- Food
- Health
- Education of children (girls and boys)
- And to modest savings for the establishment of a small income-generating activity.

Any other allocation of funds must be decided by the household council.

In case of any disagreement of a member of the household on the management of the transferred funds, the latter is obliged to resort to the traditional chiefdom of his village, to resolve the problem raised without violence to any member of the household.

COMMITMENT OF THE BENEFICIARY DESIGNATED BY THE HOUSEHOLD

The designated beneficiary undertakes to return the transfer funds collected within the household for use for the benefit of all its members.

Official launch of money transfer payments by
HEM. Faure Essozimna GNASSINGBE at TIMBOU (P/Cinkassé) April 23, 2019

« The political willingness of the Head of State for effective and stronger inclusion has always been put into action. Through the National Development Plan (PND) 2018-2022, the Government has committed to doing everything possible to share the fruits of growth.»

The effective start today of cash transfer payments to vulnerable households in Togo is a good illustration of this.

Extract from the speech of Minister **VICTOIRE TOMECAH DOGBE** at the launch of the payment of TMs in TIMBOU on 23 April 2019

«The money transfer program was long overdue. Its implementation is the result of the combined efforts of all actors, with the Head of State, HEM, in the lead. Faure Essozimna GNASSINGBE, to work together for the promotion of shared prosperity and the eradication of extreme poverty by 2030, the 2 main objectives of the World Bank Group. »

Excerpt from the speech launching the TMs in TIMBOU on 23 April 2019 by the Resident Representative of the World Bank in Togo Mrs. **HAWA Cissé WAGUÉ**

Component 3: CAPACITY BUILDING AND PROJECT MANAGEMENT

Planned funding : 5.6 million US dollars or 3.36 billion CFA francs

Sub-component 3.1: Grassroots Management Training (FGB)

To empower beneficiary communities to take responsibility for the implementation of development projects through « the Community-led Development (DCC) » approach and grassroots management training (FGB).

Estimated funding : US\$ 0.5 million (300 million CFA francs)

Sub-component 3.2: Support for the establishment of a social safety net system

To contribute to the deployment of the national targeting strategy for the development of a cross-cutting social safety net system.

Estimated funding : US\$ 0.5 million (CFAF 300 million)

Sub-component 3.3 : Project management

Estimated funding : US\$4.6 million or CFA 2.76 billion CFA francs

Beneficiaries/location

The whole national territory.

Strategy/approach

- Participation
- Equity
- Sinergy of actions
- Community-led development through grassroots management training (FGB).

Expected results

- 200 infrastructure micro-projects are carried out in 200 communities in the five (05) regions of the country.
- 91,500 school children, including 41,500 with State funding, and 50,000 with World Bank funding, benefit from a hot meal every day.

-52,000 households, including 12,000 with State funding and 40,000 with World Bank funding, benefit from a money transfer of 15,000 CFA francs per quarter for two years.

Implementation period: 2017 to 2020

Project cost: US\$ 32 million (CFA Francs 19.2 billion)

(conversion rate: 600 CFA = US\$1)

Source of funding

- World Bank: US\$29 million or 17.4 billion CFA francs
- Togolese State: US\$3 million, or 1.8 billion CFA francs/year.

SCHOOL CANTEENS, BENEFICIARIES' TESTIMONIES

ALADE Koffo

EPP Agodomé Principal

«When the students come to school, they eat meals containing all three food groups before they go home. This has reduced the rate of illness among them. The other advantage of school canteens is that after the meal, the children no longer go home at midday. They rest to be back in classes in the afternoon. We have also noticed that the students are fleeing from neighboring schools to the ours because there is food here. We ask you to help these schools with the school canteens as well.

The advent of canteens has increased the success rate in our school compared to previous years. We always want to thank you.

At noon we take the children out, and the canteen mothers help us with the distribution of the meals until they finish eating. We thank once again the World Bank. »

ADODO Adéline

Student in CM class

« With the canteen, we now like to come to school. No one wants to miss a day of classes anymore, and everyone is learning well. »

MONEY TRANSFERS, BENEFICIARIES' TESTIMONIES

DJERI Amamatou

Beneficiary of MT

« I am one of the women who started receiving the 15,000 CFA francs of TM quarterly in our village last May.

With the agreement of all the members of our respective households, four (04) women, including myself, decided not to use TM directly in consumption so that at the end of the project, we would still have enough to live on.

So, we got together as a group to raise 60,000 francs to start producing Gari. We spent 40,000 CFA francs of this amount on the purchase of a cassava field. The rest was used in the cassava transformation process.

Today, we are gari producers. It is with a part of the income from sales that everyone makes his household expenses. With the next payments, we will increase production to better sell.

Already, we have bought a second field to continue the transformation. I am really satisfied because we have found the way to provide for our families' daily needs and save some money. With this activity, I am convinced that I am very far from my former misery before the end of the cash transfer project. Many thanks to the donors... »

ABALO Afoua

Beneficiary of MT

« After the death of my husband, we were really in trouble. I heard that there is a project for poor and vulnerable households. This project gave us 15,000 CFA francs for our needs. I used some of this money to buy maize, small fish and condiments for our food at home. The rest of the money, which was 7,500 CFA francs, I used it to buy a goat for breeding with the hope that when it gives birth, I can sell the young to ensure my children's schooling. ANADEB has helped us a lot and we pray that it will continue to do so. We also pray to God to bless the donors, the government and the World Bank. »

EJV
Since 2017

Employment Opportunities for Vulnerable Youth Project

Objectives

Provide income-generation opportunities for targeted poor and vulnerable youth in Togo.

Component 1 : Community volunteering and training

Provide an opportunity to develop healthy work habits and acquire civic values while participating in an activity valued by the community.

Estimated funding : 8.5 million US dollars or 5.1 billion CFA francs

Sub-component 1.1 : Community volunteering and on-the-job training

Estimated funding : 3.5 million US dollars or 2.1 billion CFA francs

Sub-component 1.2 : Training on life skills and micro-entrepreneurship

Estimated funding : 5 million US dollars or 3 billion FCFA

Component 2 : Support for income-generating activities

Support beneficiaries who have successfully completed Component 1 activities for the launch or expansion of an income-generating activity (through a grant and access to mentoring).

Estimated funding : 2.5 million US dollars or 1.5 billion FCFA

Component 3 : Capacity building

Estimated funding : 1 million US dollars or 600 million FCFA

Sub-component 3.1: Capacity building for the implementation of youth employment interventions

Support the government in the design, strengthening and implementation of operational instruments necessary for the implementation of microprojects for the employment of poor and vulnerable youth.

Estimated funding : 0.8 million US dollars or 480 million CFA francs.

Sub-component 3.2 : Support community capacity building through a grassroots management (FGBMFI) training coach

Estimated funding : 0.2 million US dollars or 120 million CFA francs

Component 4 : Project management

Estimated funding : 3 million US dollars or 1.8 billion CFA francs

Beneficiaries / targets

14,000 Togolese young people (men and women) aged 18 to 35 in poverty and/or vulnerability from 200 different villages in 150 cantons. Young people will be recruited through voluntary application and random selection.

- **Location: The whole national territory**
- **Implementation strategy**
 - Beneficiary participation
 - Sinergy of actions
 - Equity
 - Community-led development (CCD).

- **Results / effects**
 - 14,000 young people, including at least 7,000 women have improved their incomes
 - The capacities of 14,000 vulnerable young people are strengthened in the business development and citizenship issues
 - 10,000 vulnerable young people have benefited from the funding to launch or expand their income-generating activities
- **Implementation period: 2017 to 2020**

Cost of the project : 15 million US dollars or 9 billion CFA francs (conversion rate: 600 CFA = 1 \$US)

Source of funding : World Bank

Implementation institution: ANADEB.

EJV, BENEFICIARIES' TESTIMONIES

Ama Fakpa

Beneficiary of EJV project

«Before I did the community volunteering, I worked at home. But I didn't have many clients. Only those I already knew, or who knew me, would come and order. And often it was for small alterations to their old clothes. It was very difficult at home because I couldn't cover all the expenses for my two children. They had to be sent to school, they had to be fed, they had to be taken care of. But as I was the only one taking care of them, my work didn't generate enough income for all that. That is why, when I heard the announcements of the EJV project on the radio, I took the plunge; and thank God, I was held back. I did everything I was asked to do. In our village, I took part in the construction of the Zafi track in Kouvé in the Yoto. I also took several training courses. During the work, we were paid 15,000 CFA francs every 10 days. With this income, I started by breathing a bit, but I didn't spend it all. I saved part of it on the account that the project helped me open. With my savings and the extra help, I received from the project at the end of my volunteering, I acquired the machines I was missing and set up a shed by the roadside to be my sewing workshop. Formerly, I had only two orders a week, and I didn't have an apprentice. But now that I'm here, I receive many more orders a day; even from people I don't know. I also took on two apprentices. I know now that I'm a real seamstress. This project has really changed my life and my children's lives. »

DOUTI Gnamtoi

Beneficiary of EJV project

« I come from Dabogou in the prefecture of Tandjoare. At first, we registered with the CVD and then the people from ANADEB came to make the draw. They wrote the numbers on pieces of paper and we made the draw. I chose number 48, and so I came out a beneficiary. When we carry out the work, we are paid every 10 days at a rate of 1,500 francs per day. We save 500 francs a day. After the 80 days of THIMO, the money I have saved will allow me to do business to improve our situation. I sell the local drink "tchakpalo" and the sound of the drink will serve me in the pig breeding. »

«We have been mobilizing our fellow citizens for this health activity for three years now. I can tell you that the considerable increase in the number of participants surprises us. See for yourself; this number proves that ANADEB's Clean Saturday operation is a success and that the populations gain a lot from it. »

« I finished my apprenticeship 5 years ago, but I couldn't open a workshop because I didn't have any working materials. Today, I have received sewing and threading machines, an iron and many other things. I'm very happy to finally have something to do my job with. I say thank you to the government's support for we young people. Long live to the Volunteerism of Citizen Engagement, and long live to ANADEB. »

PSAEG / PRT

Since 2009

PSAEG

Project to support the economic activities of groups (PSAEG)

Learn to co-manage, become autonomous

- **General objective**

Contribute to the improvement of the incomes of members of groups / cooperatives and the development of rural employment in villages.

- **Specific objectives**

- Strengthen the capacities of groups/cooperatives
- Facilitate access for group members to appropriate local microcredits
- Monitor and assess actions and capitalize on experiences

- **Criteria of selection**

- Be a grouping/cooperative that has led its constituent general assembly and operates in a rural environment
- Conduct an income-generating activity.

PRT

Root and Tuber Plant Development Project (PRT)

Learn to co-manage, become autonomous

- **General objective**

To promote the self-employment of young people and their integration into the economic life through the production, processing and marketing of root and tuber crops.

- **Specific objectives**

- Contribute to the improvement of the cultivation, conservation, processing and marketing of root and tuber crops
- Strengthen the capacity for initiative and self-organization of producers, processors and traders
- Fostering an entrepreneurial spirit among rural youth
- Set up a local savings and credit system.

- **Target group**

Rural groups in areas of high cassava production.

- **Criteria of selection**

- Be a grouping/cooperative that has led its constituent general assembly and operates in a rural environment
- Conduct an income-generating activity
- Be a group or cooperative engaged in cassava processing.

CREDIT AND SAVINGS GROUP

PSAEG / PRT, BENEFICIARIE'S TESTIMONIES

Mrs EDJARE Adèle

Secretary Evou Béthel savings group
(Amou) initiated by ANADEB

« In fact, at the beginning of this savings group, we did not fully give ourselves for the fact that in the past, many micro-finances have deceived our vigilance and swindled us. But, after a while, we realized that by organizing ourselves, it would be a good initiative.

With our savings group, the money does not come from elsewhere. We contribute and make loans from our joint savings. Everyone respects the repayment deadlines. So, there is no problem. Our loans contribute, for the most part, to increasing our turnover and profits. Today, is our 52nd week of meeting, that's why we gathered for the sharing. I have just received a large sum of money that goes even beyond what I had saved because of the interest on the loans that are added to it. Our prayer is that ANADEB, through this savings group project, will also go to the remote corners of Togo. I mean ANADEB must go to the most deprived communities to help them develop their productive potential, because here it works, and it does us good. For the next cycle, the price of the stake has risen to 300 francs per week with 23 members against 19 during the past cycle. A sincere thank you to ANADEB because, due to its support, we have better control over the financing of our small businesses which become more important after each cycle of 9 or 12 months depending on the year. »

ADEGNON Rémi

Tomato promoter in the prefecture
of Vo, Maritime region

« If we are known today on a national level, and people appreciate the RETO brand that we produce, it is thanks to ANADEB who gave us the competence and the equipment. ANADEB's support has allowed us to increase our transformation, and also to be able to supervise our workers. This has earned us several invitations to participate in fairs and exhibitions. In the last three years we have produced an average of three (03) tons, but this year 2019, when the tomato campaign began, we produced more than twenty-five (25) tons valued at more than 7,000 jars. This is equivalent to 1,500 baskets of tomatoes. We produce the fresh tomato ourselves, and we consume almost all the tomato produced in the prefectures of Vo, Bas-Mono and Lacs. We say thank you to the government. »

CANTONNAGE

Since july 2015

“CANTONNAGE” PROJECT

Project to support communities in the manual maintenance of roads and tracks

Contribute to making communities more accessible

- **General objective**

In collaboration with the Ministry of Infrastructure and Transport and the Autonomous Road Maintenance Financing Company (SAFER), this project aims to : Maintain pavement approaches, drainage and sanitation structures in a permanently clean condition to ensure visibility on rural roads and trails and to ensure proper drainage of storm water and runoff.

- **Criteria of selection**

- Traffic density
- Agricultural and economic potential of the areas

- **Target group**

- Villages and Towns of Togo

- **Specific objectives**

- Ensure permanent coverage of the entire network to serve all the rural populations and open up remote areas
- Intervene quickly and at a lower cost to stop road and tracks damage as soon as it occurs
- Creating employment to stem the rural exodus
- Facilitating access to basic social services.

CANTONNAGE RESULTS

“CANTONNAGE” PROJECT BENEFICIARIES’ TESTIMONIES

LAMBONI Yendoupak

CVD President of the Loko-tigou village
Canton of Loko (P/Tandjouaré),
region of Savannas.

« Our village Natigou has benefited from the “Cantonnage” project. The funds from this were used to buy a box of chalk for two public primary schools (EPP) and a local general education college (CEGIL). It also made it possible to purchase anti-venom vaccine for the local Medical and Social Centre (CMS). In addition, an envelope of 20,000 CFA francs was given to each of the six organized groups that carried out manual maintenance work, for a total sum of 120,000 CFA francs. Our thanks go to the Directorate General of Public Works (DGTP), the Autonomous Road Maintenance Financing Company (SAFER) and also to ANADEB.

We hope that this project will continue to keep our roads and tracks clean in order to avoid traffic accidents and also to improve living conditions in our communities. »

Kossi BANDJE

CVD President of the Gboto Vodoupé
village
(P/ Yoto), Maritime region

« The cantonnage project ensures permanent visibility on roads and tracks. It greatly reduces traffic accidents, and it feeds his man. In our locality, it's a great way for young people to find something to support themselves every month. We used part of the resources to make 19 table benches worth about 300,000 CFA francs for the local initiative college in the locality. »
